

PLUM®

The perfect glass,
anytime.

DIMENSIONS 17" x 16" x 20.5"

PLUM 

Serving wine, just as the
winemaker intended.
www.plum.wine

The first fully automatic appliance
that perfectly preserves, chills and
serves wine so it can be enjoyed one
glass at a time.

You wouldn't accept a lukewarm cup
of coffee or a cold steak. Wine tastes
best at the right temperature. Plum
maximizes the flavor of your wine by
serving every glass at its varietal or
blend's ideal temperature.

FEATURES

- 7" touchscreen with proximity sensor lights up as you approach & pours at a touch.
- Dual spouts & winery grade stainless steel tubing deliver each wine only 8 secs. per pour.
- Integrated flow meters pour precisely & track when wine needs replacing.
- Ambient Light illuminates the cooling chamber.
- HD cameras automatically identify bottles.
- Refillable argon canister preserves 150+ bottles.
- Thermoelectric cooling silently chills each wine to a perfect temperature.
- Motorized needles work with any closure, perfectly preserving wine.
- 304 stainless steel shell that complements luxury kitchen appliances.
