### LUXURY OUTDOOR KITCHEN IN 1 DAY

LOC Outdoor Kitchen Units provide beautiful and authentic masonry outdoor spaces in less than half the time traditional building techniques require. Each unit is made of strong, yet lightweight glass-fiber reinforced concrete (GFRC) that can be installed on any solid flooring surface without concrete footings or rebar. Eliminated is the construction waste and additional time associated with traditional CMU installations.

## 5 STEP SYSTEM

1

### PRE-PLANNING & DESIGN

- ❑ Specify appliances, countertops and surround material.
- ❑ Install necessary utilities.

2

### SECURE LOC UNITS

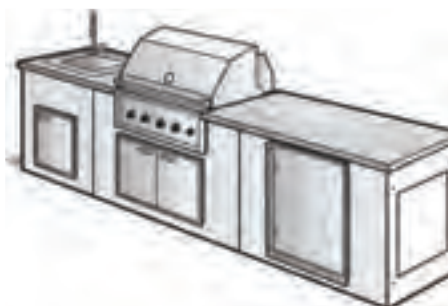

- ❑ Set LOC Units in designated area.
- ❑ Level, glue, and bolt LOC Units.

3

### CUT APPLIANCE OPENINGS

- ❑ Install doors and drawers in advance of stone installation.

4
