SINCE 1933 Pentair Everpure has been one of the most trusted global brands in the foodservice industry and those who serve it. Our proven solutions help to protect water at your home and where you work. From premium quality ingredient water for foodservice; fresh, clean, drinking water at home or away; or treated water for the whole home, Pentair Everpure delivers peace of mind and water you can trust.

COMMERCIAL GRADE:

Robust metal construction not susceptible to leaks like plastic filtration systems.

RECYCLABLE, SUSTAINABLE, GOOD FOR THE ENVIRONMENT:

Everpure filters are 100% recyclable.

SANITARY, QUICK-CHANGE DESIGN:

Annual cartridge replacements as easy as changing a light bulb.

NSF CERTIFICATION:

All Everpure Select Series Products are certified by NSF International, to the strictest standards, ensuring the best quality water for your body.

GOOD FOR YOUR FAMILY'S APPLIANCES:

Protects your appliances from the build-up of limescale.

GREAT TASTE:

Rated at the highest levels for the reduction of off-tastes, odor, chlorine and particulate reduction.

RETAINS VITAL MINERALS:

Retains vital minerals to ensure the healthiness and delicious taste of your family's water.

GOOD FOR YOUR FAMILY'S HEALTH:

Protects against asbestos, lead, cysts, and various chemicals - some Everpure Systems even remove bacteria and viruses!

GOOD FOR YOUR FAMILY'S FINANCES:

At only pennies per gallon!

FULL FLOW FILTRATION EF-6000

EF-6000 FULL FLOW FILTRATION SYSTEM

Filters 6,000 gallons; 1.67 GPM flow rate

- **No Additional Faucet Required**
- **Connects Directly to the Cold Water Supply of your Existing Faucet**
- **Provides Enhanced Bacteriostatic Control (Inhibits Bacteria Growth)**
- Commercial Grade / Robust Metal Construction
- Recyclable, Sustainable, Good for the Environment
- Sanitary, Quick-Change Design
- NSF Certification
- Great Taste - Removes Off-tastes, Odor and Chlorine
- Retains Vital Minerals
- Protects Appliances from Damaging Scale

REVERSE OSMOSIS SYSTEM ROM IV

Complete System
Dimensions:
20" x 5" x 5"

Universal Air Gap Adapter

ROM IV REVERSE OSMOSIS SYSTEM

Filters 1,000 gallons; 0.5 gpm flow rate

- **Separate Air Gap Filter Faucet (Included)**
- Three Stage Filtration System
- 14 Gallon Per Day High Recovery Reverse Osmosis Membrane
- Compact System Fits Under Your Kitchen Sink
- Designed for Chlorinated or Non-Chlorinated Water Supplies
- Sanitary Cartridge Replacement is Simple, Quick and Clean
- Most Efficient Technology Available on the Market Today
- *NOTE: Universal Air Gap adapter must be used if a non air gap faucet different than what is included is installed with the ROM IV System*

REVERSE OSMOSIS ACCUMULATOR STORAGE TANK EV310275

EV310275 REVERSE OSMOSIS ACCUMULATOR STORAGE TANK

- 3 gallon hydro-pneumatic storage tank for storing and dispensing RO high purity water
- 100% seamless composite construction
- Produced using NSF® and/or FDA listed materials
- Meets stringent US requirements for water components
- Environmentally safe, 100% lead-free
- Discharges in any position
- Will not introduce chemicals or elements into water
- Pre-installed inlet-outlet assembly, reduces installation time and cost

MODEL	DESCRIPTION	MAP	MSRP
EV310275	3 Gallon RO Tank	172.20	273.00

CLASSIC SERIES FAUCET

*Faucet Dimensions:
5.75"W X 12.28"H
